Partnerships in Care 

Relatives, carers and patient information

Treowen ward
Llanarth Court Hospital

Ward philosophy

The unit offers a high quality, low secure service for male patients with a mental disorder. The unit employs a bio-psycho-social model of care which looks at maximising the strengths of patients whilst addressing the problem areas in their lives.

There is a dedicated Multi-disciplinary Team (MDT), which promotes collaborative working with patients to achieve their goals and to address their risk behaviours, which will allow them to leave the secure unit.

Support group

The Treowen Team would like to invite you to a relative/carers support group at Llanarth Court Hospital. This will give you the opportunity to talk about general issues, meet members of the team and learn about what we do and what the ward philosophy is. You will be able to ask questions about the way the ward is run and what we do for people in our care.

Please note we will not be able to discuss your relative due to confidentiality. However, if you would like to speak to Dr Dilum, the Responsible Clinician, then you can arrange this at another time.
